**Kubota RTV 500 Fault Codes**

I am experiencing some fuel injector problems. I do believe my question is how do you bring the fault codes up and how do you interpret them. I own a Kubota RTV 500 and I am having some fuel injector problems. I think the oil might be too thick, and I need to change it. I am going to try to get another 50 hours on the tractor before I do anything, and they said that it had break-in hydraulic oil in it. If it gets slow or stops lifting, that's the oil that was too thick.
